The Journal of Modares Mechanical Engineering is a multi-disciplinary, peer-reviewed journal covering all areas in mechanical engineering in Persian language with English abstract. The mission of the journal is to publish high quality work from experimental, theoretical, and computational investigations on mechanical engineering. This journal is published in 12 issues per year. All articles published by journal are made accessible online immediately upon publication, without subscription charges or registration barriers. More details can be found at: http://mme.modares.ac.ir.

AIM AND SCOPE
The aim of the Journal of Modares Mechanical Engineering is to provide an area for the publication and dissemination of original work that contributes to the understanding of the main and related disciplines of mechanical engineering. It focuses on both analytical and experimental research, with an emphasis on contributions which increase the basic understanding in Mechanical Engineering and their application to engineering problems. The journal covers the whole spectrum of mechanical engineering, which includes, but is not limited to, Thermal Engineering and Fluids Engineering, Aerospace engineering, Production Engineering, Dynamics, Vibration, Control, Materials and Design Engineering. Manuscripts may fall into several categories including original research articles, reviews, research notes and technical notes related to the core of mechanical engineering. It is hoped that this journal will prove to be an important factor in raising the standards of discussion, analyses, and evaluations relating to mechanical engineering. All manuscripts with significant research results in the areas of Mechanical Engineering and their application are welcome.

TOPIC INCLUDED
Aerospace Structures  Compressible Flow  Fluids Machines  Mechatronics  Reaction & Multi-Species Flow  Robotic
Analysis & Design of Materials  Control  Fuel Cell  Metal Forming  Solar Energy & Radiation  Sonic Flow
Analytical Methods  Creep  Gas Dynamics  Micro & Nano Systems  Stress Analysis  Thermo Fluid Power
Aerodynamics  Damage Mechanics  Heat & Mass Transfer  Moulds & Tool Design  Thermodynamics
Biomechanics  Dynamics  Hydraulic & Pneumatic Systems  Numerical Control Machines  Turbulence
Casting  Elasticity & Plasticity  Impact Mechanics  Porous Media  Two & Multi Phase Flow
Computational Fluid Dynamic (CFD)  Energy in Buildings  Industrial Manufacturing  Pressure Vessel  Vibration
Characterization  Energy Systems Management  Instrumentation  Manufacturing Methods  Welding
Combustion  Experimental Fluid Mechanics  Manufacturing Methods  Manufacturing Processes  Marine Structures
Composites  Fatigue & Failure  Marine Structures  Manufacturing Processes  Marine Structures

Published monthly by Tarbiat Modares University. Publishes research papers in Mechanical Engineering in Persian Language with English Abstract.
